A SNAPSHOT OF THE PROGRAM:

WELCOME TO EVANS LAKE!

Outdoor Adventure Kamp (OAK) is an unforgettable journey into some of the Sea-to-Sky regions favourite backcountry adventures and hidden gems! After an orientation to camp, we gear up to play an awesome camp-wide game, followed by a swim and our opening campfire! The first day is designed to connect our OAK staff and team for the journey ahead.

DAY 1

The first day of OAK is all about meeting the OAK team (of campers & staff), and getting oriented with the out-tripping gear! Once at camp, the OAK staff will take you on your own unique orientation, distribute our camping equipment and teach the group how to use it, introduce concepts like "Zero Trace" hiking, and lead the group through team-building exercises. Whether we are setting up tents, firing up stoves, or properly loading our packs, we cover it all.

DAY 2-5

Whether it's resting on the shores of Garibaldi Lake, treading through meadows of alpine flowers, passing through the shadow of Black Tusk mountain, or setting foot atop Panorama Ridge, every view will be richer as you and your OAK teammates have earned it one step at a time. Brave enough to dip your toes in a glacier-fed lake? There's only one way to find out!

DAY 6-7

With a night's rest at Evans Lake, we'll take on the white water rapids of the Elaho River. Working together, we will navigate down through waters that emerge from the Pemberton Ice Fields and end in Howe Sound. After an action-filled week, we'll pack up all of our remaining equipment, and say our goodbyes to close a very memorable OAK camp.

PACKING LIST:

These are the items we suggest campers should bring in order to have a fun, safe and comfortable OAK experience. On top of the packing list, Evans Lake will provide all participants with: foamie, all cooking utensils and supplies, tent, and an internal-frame backpack (if needed). *If the sleeping bag you bring is not sufficient for the conditions, Evans Lake can loan one from our camp set.

CAMPERS SHOULD BRING:

Please do not bring: Electronics (cellphones, iPods), matches, knives, cigarettes, alcohol, drugs, very expensive or hard to replace items, food items (including gum), money.

Optional: Lock (with 2 keys), camera, flashlight, insect repellent, book/journal.

Note: Digital or film cameras are preferable to cell phones being used as cameras.

CAMP RULES & EXPECTATIONS:

The camp experience involves living in a small community setting for the week. In order to ensure the quality of experience for everyone, we expect all campers to treat each other, the staff, and camp property with respect.

Families should review the following rules and expectations with their child prior to arrival at camp:

The Evans Lake Forest Education Society is proud to uphold human rights, we value the inclusion of all members of our community, and we strive to create a fun environment for everyone to explore forests.

Campers are expected to follow the instructions of camp leaders.

Camp is a positive and inclusive space. As such, verbal abuse, physical aggression, harassment and bullying are not permitted.

Smoking, vaping, drinking alcohol or consuming medication is not permitted at any time.

Items on the "Please do not bring" list that find their way to camp may be confiscated by the camp staff.

In the past, we have found the vast majority of campers at Evans Lake have an exciting and rewarding experience. Many return year after year and eventually take part in our Leadership Program or join our staff team! Unfortunately, on rare occasions, we have had to send campers home early for behaving in a manner that was considered a threat to their own safety or the safety of others, or inconsistent with the behaviour expectations detailed here and during the Orientation on the first day of camp. To avoid the disappointment of a camper returning home early, we ask families to review the camp rules with their child. In the event that a child must be depart early from the program for behavioural or safety concerns, families are responsible for picking up their child.

TIPS FOR CLOTHING/FABRIC SELECTION

Consider fabrics such as wool, polypropylene, or fleece over cotton as they will keep you warm even if they become wet. Also, consider bringing several layers of clothing so that you can adjust your body temperature while we hike and at night.

GENERAL NOTE ON WEATHER

As on any hiking trip, participants should be prepared for changing weather conditions including heavy rain, wind, and residual snow pack. Having clothes that will keep you warm and dry are essential for both your happiness and your effectiveness as a hiker! By following the list in the "What to Bring to OAK" section, and with our staff guides, OAK'ers will be well prepared.

When packing: Consider marking all luggage with a distinctive marker/ribbon/tag so that you can easily identify your luggage at the transport point on the return from camp. Where possible, black plastic garbage bags are *not* recommended as they can be easily mistaken for another camper's belongings.
